

Asia Pacific Aircraft Component Services Unveils New Logo

(From left to right): Mr Martin Urwyler, Managing Director of Asia Pacific Aircraft Component Services (APACS), Mr Wong Yue Jeen, Senior Vice President Partnership Management and Business Development of SIAEC, Mr Chin Yau Seng, Chief Executive Officer of SIAEC, Mr Matthias Düllmann, Chief Executive Officer of SR Technics, Mr Foo Kean Shuh, Executive Vice President of SIAEC, and Mr Bernd Riggers, Senior Vice President Component Services of SIAEC, at MRO Asia-Pacific 2023.

SINGAPORE, 27 SEPTEMBER 2023 – Asia Pacific Aircraft Component Services Sdn. Bhd. (APACS), a leading Maintenance, Repair, and Overhaul (MRO) provider of aircraft components in the Asia Pacific region, proudly unveiled its new logo today at MRO Asia-Pacific. Mr. Chin Yau Seng, CEO of SIA Engineering Company, and Mr. Matthias Düllmann, CEO of SR Technics Switzerland, jointly unveiled the logo, capturing the momentous occasion as witnessed by esteemed guests and industry partners.

Formerly known as SR Technics Malaysia, APACS is a joint venture between SIA Engineering Company and SR Technics Switzerland, two globally renowned MRO companies. It is a trusted partner in aviation, delivering component repair solutions through its technical expertise and cutting-edge equipment at its state-of-the-art, 90,000 sq. ft facility in Shah Alam, Malaysia.

By partnering component manufacturers, APACS has a comprehensive repair capability portfolio encompassing engines, avionics, airframe, and cabin interior components for a wide range of aircraft, such as the A320, A330, 737 and 747. It also has approvals from leading civil aviation authorities globally, including the Federal Aviation Authority, European Aviation Safety Agency, Civil Aviation Authority of China, and Japan Civil Aviation Bureau, among others.

Martin Urwyler, Managing Director of APACS, addressed the audience at the ceremony, stating, "Today marks a significant milestone for APACS as we unveil our new logo and embark on a transformative journey. We are reaffirming our commitment to customer focus, innovation, excellence and growth."

The new logo represents APACS' forward-thinking approach, featuring an aircraft wing and arrow, symbolizing dynamism and progress. This design reflects the company's dedication to Excellence, Agility, and Integrity in providing exceptional component MRO services to the aviation industry. As APACS embarks on this exciting journey with its new logo, the company remains committed to pushing the boundaries of excellence in the aviation industry and creating value for its customers.
